

Project Name: Upay

Motto: Make it simple

https://github.com/iuthub/design-project-diamond_group.git

TEAM: Diamond_group

Team members

Azizbek Samatov U1610042

Saidamir Botirov U1610263

Shahzod Urinboev U1610213

Shakhzod Khayitboev U1610216

Madiyor Abdukhayimov U1610131

Project description: Upay is an e-commercial website and it serves for all people who are registered and who are not. Now it does not have many facilities but there will be used great search engines like "Allgolia". Now there is used simple search tips through database. It provides many types of products and payment system was implemented. It's responsive and provides different user types so guest, user and admin. Admin can delete and upload products while user can buy them. Additionally guest user can just look through all elements. For guess user read only part is assigned.

Shahzod Urinboev and Shakhzod Khayitboev – Admin side

Azizbek Samatov – design

Saidamir Botirov – client side back-end and logic

Madiyor Abdukhashimov – searching part and comments

The image displays two screenshots of a web application running on a local server (127.0.0.1:8000). The browser window shows the Laravel framework interface with a 'Madiyar' user profile in the top right corner. The first screenshot shows the 'Login' page with the following fields: Username (Madiyor), Password (masked with dots), a 'Remember Me' checkbox, and a 'Login' button. A link for 'Forgot Your Password?' is also present. The second screenshot shows the 'Register' page with the following fields: Name (Madiyor), E-Mail Address (Madiyarkhan1997@mail.ru), Password (masked with dots), and Confirm Password (masked with dots). A 'Register' button is located at the bottom of the form. The browser's address bar and the Windows taskbar are visible at the bottom of the screenshots.
